Then 1 tabulator called off the candidate name voted for and 2 Tabulators recorded the votes on a tally sheet. Candidate totals from the Edge as follows: Prosser = 73, Kloppenburg = 64. and the third absentee certificate envelope was signed by the voter's POA and was witnessed by the same person. Dunn County Corporation Counsel, Scott Cox, offered his opinion that the ballot should be rejected since the witness and the voter signature were the same. The six absentee ballots cast were laid out upside down on the table, and the BOC drew out 3 ballots. The draw-down resulted in minus three votes for Prosser.

Ballots were returned to ballot bag and re-sealed with tamper-evident Seal #738690.

Edge - Tabulators hand-counted all ballots cast on the roll to confirm that total ballots matched results tape. Discovered that the count of each ballot was one short from total ballots cast on results tape. First thought was that the ballot was inadvertently still attached to a results tape printed for school districts. County Clerk telephoned all four school districts in Town of Lucas and it was verified that the school's results tapes did not have a ballot attached. The tabulators hand-counted the roll of ballots a second and third time with same outcome – one ballot short. At this point, County Clerk conferred with GAB staff person, and was told to contact vendor for instructions on how to run a ballot audit report. When this new ballot report was hand-counted, the total of actual ballots cast equaled the total ballots cast on the results tape. Then 1 tabulator called off the candidate name voted for and 2 Tabulators recorded the votes on a tally sheet.
